WHERE TOMORROW'S VICTORIES BEGIN

# Significant Issues - TIE McCoy

- **TDA Changes - 75H4 to 74B4 proposal**
- **Educating the field about TASS - ARRTC USAR opportunity**
- **T-XI Accreditation Support to Proponent Schools during non-accreditation years**
- **Antiterrorism and Force Protection Training Requirements**

Sep 12

WHERE TOMORROW'S VICTORIES BEGIN

# TIE McCoy

- **Issue:** TDA Change (effective OCT 02) eliminates critical 74B40
- **Discussion:** TDA change does not address the continued need for automation support required by the TIE. The loss of the only IMO support for a geographically dispersed group of Title XI soldiers will negatively impact their mission. A very large percentage of TASS issues are addressed utilizing electronic media, and maintenance of issued hardware and software will quickly degrade without this soldier.
- **Recommendation / Impact / Status:** TIE McCoy recommends conversion of the 75H4 ARNG Title-10 AGR position to a 74B4 ARNG Title-10 AGR position. The AGR 74B40 position is more relevant to the nature of the tri-component staffing of the TIE(s), as two 75H3 positions remain on the TDA.

# TIE McCoy

- **Issue:** Educating the field about TASS
- **Discussion:** TIE-McCoy is coordinating with the ARRTC at Ft McCoy for time during the Pre-Command and Full-time Enlisted Personnel Support Courses. TIE Staff would like to conduct TASS Orientation and Title XI familiarization for incoming TASS Battalion Commanders and full-time staff. With dozens of courses per year the ARRTC is reluctant to provide dedicated POI time for TIE staff. We are exploring creative opportunities (such as lunch or end of day) for incoming USAR TASS personnel. This TIE McCoy initiative will be in support of all USAR TASS Battalions nationwide.
- **Recommendation / Impact / Status:** TIE McCoy solicits input from the other TIEs as to specific items for discussion/familiarization. This opportunity will enable us to educate incoming USAR TASS BN leadership and full-time staff on the Title XI program and TIE duties and responsibilities.

# TIE McCoy

➤ **Issue:** Title XI Accreditation Support to Proponent Schools during non-accreditation years

➤ **Discussion:** Reductions in Title XI strength at Proponent Schools requires augmentation to TASS accreditation teams. TRADOC has proposed that TASS Battalion Title XI assist proponents in accreditation. Identification of specific requirements, and how they will be funded, have not been established.

➤ **Recommendation / Impact / Status:** Use of TASS Battalion Title XI assets must be coordinated through their respective TIE. TASS Battalions who have just completed accreditation are best qualified to fulfill taskings for Title XI support. Title XI proponent augmentation should not be at the expense of support to their own region. DCS&ED should ensure that proponent schools adhere to the timelines and funding guidelines in the MOA.

WHERE TOMORROW'S VICTORIES BEGIN

# TIE McCoy

➤ **Issue:** Antiterrorism and Force Protection Training Requirements

➤ **Discussion:** References:

a. Message, HQDA, 181932Z Oct 01, Subject: Level 1

Antiterrorism Awareness Training.

b. Message, HQDA, 191252Z Dec 01,

Subject: Antiterrorism Force Protection Training.

References specify that

commanders will ensure that all soldiers receive Antiterrorism Awareness/Force Protection (AT/FP) Level I training and an AOR specific briefing prior to departure from home station to an overseas are in a PCS, TDY, TCS, leave, or pass status. References also specify that Level I training is an annual requirement for active duty service member. References also state that a signed MFR certifying when soldiers received the AT/FP Level I training will be placed and kept in the soldiers' training records. Web-based training is available , however, documenting that all soldiers completing the annual requirement would be difficult.

➤ **RRecommendation / Impact / Status:** If a National Title XI Conference is held, conduct the Level I training there. TIE McCoy has one, qualified AT/FP instructor and could provide the training. This would assure that all soldiers receive the required training. In out-years this could be a topic at regional Title XI Conferences.
